## Press Announcement

15 April 2009

### ENDACE LIMITED

#### PERIOD END TRADING UPDATE; YEAR TO 31<sup>st</sup> MARCH 2009

Endace Limited ("Endace") (AIM: EDA, "the Company"), a world leader in network monitoring solutions, provides an update on trading following the end of its financial year to 31 March 2009.

#### TRADING UPDATE

Results for the year are expected to be consistent with our trading update on 12 February 2009. The Company expects to report revenues of approximately US\$30.3 million (2007/8: US\$24.2 million) and profit before tax and share option charge of approximately US\$5.1 million (2007/8: US\$4.8 million).

Endace's Chief Executive Officer, Mike Riley, commented:

"While our markets continue to be challenging, we have seen good levels of activity and spending in the telecommunications and government sectors, and we have won some significant new accounts in the closing months of the year, including customers in financial services. A number of these wins reflect the technical leadership of our product and service offering. We have taken action to reduce our cost base but continue to make careful investment in certain markets, such as Asia Pacific, where we are making good progress and seeing new opportunities. Despite the difficult economic environment, Endace has been successful growing its revenues by twenty five percent in the past year, as well as making significant additions to our intellectual property portfolio."

#### Announcement of Preliminary Results

Endace plans to report preliminary results for the year ended 31 March 2009 on Tuesday, 19 May. An analyst briefing will take place on the morning of that date at Weber Shandwick Financial, Fox Court, 14 Gray's Inn Road, London, WC1X 8WS.
