

Special offer for STAC Summit attendees

endace.com

Buy the new DAG 10X4-S at the reduced price of \$6000. And get a second one free!¹

Offer closes August 31st, 2017.

For more than a decade, Endace DAG cards have been the gold standard in packet capture accuracy and performance. They provide 100% packet capture at full line rate regardless of packet size, and deliver nanosecond-level accurate time stamps on every packet.

DAG cards are preferred by banks, traders, governments and other organizations the world over for their reliability, accuracy and performance. We'd like you to see why for yourself.

The DAG 10X4-S data capture card

The [DAG 10X4-S](#) offers four, independently configurable 1GbE/10GbE monitoring ports that can be combined to provide 40GbE monitoring, and delivers cost-effective, 100% accurate packet capture for 1GbE, 10GbE and 40GbE environments.

The DAG 10X4-S provides nanosecond-accurate time-stamping of captured traffic and has a dedicated time sync port supporting PPS, IRIG-B or PTP. It has fanless cooling and, like all Endace DAG cards, is designed for ultra-reliability in the field while delivering unparalleled packet capture accuracy and performance.

With direct memory access (DMA) delivering lightning fast transfer of captured packets direct to host memory and powerful hardware-based, packet processing, the DAG10X4-S removes packet processing overhead from the host's CPU - accelerating the performance of your hosted applications. With four monitoring ports, the DAG10X4-S enables superior port-density for deployment in environments such as Co-Lo facilities where data-center space is at a premium.

The DAG10X4-S supports relative timed replay of captured traffic, allowing it to precisely reproduce traffic as captured for testing, performance measurement and other purposes.

To take advantage of this special offer, please fill out the form on the back of this page, and email it to sales@endace.com.

¹Subject to Terms and Conditions (see overleaf)

Take advantage of this special STAC offer.

To qualify, you must apply before August 31st. You can either

1. Save a copy of this PDF, complete the form below and email it to sales@endace.com
or
2. Print a copy of the PDF, fill out the details, scan and email it to sales@endace.com
